Product description:

Smartliner Passenger 23 – High-Performance 23ft Passenger Boat

Discover the Smartliner Passenger 23, the ultimate vessel for efficient, comfortable passenger transport. Designed with a robust fibreglass hull, this 23ft boat delivers outstanding durability and reliability. Whether you’re running coastal tours, harbour shuttles, or river excursions, the Passenger 23 offers rock-solid stability and a smooth, quiet ride even in choppy waters.

Equipped to carry up to 11 passengers in ergonomic seats with integrated shock absorption, the Smartliner Passenger 23 balances comfort with safety. Its deep-v hull profile and low center of

gravity maximize stability, while the self-draining deck and non-skid surfaces ensure secure footing. With a 150hp outboard engine (optional 200 HP upgrade), experience fuel-efficient cruising at speeds up to 30 knots, perfect for timely schedules and memorable sightseeing.

Key Features

- Seating for 11 passengers in weatherproof, cushioned bucket seats
- Deep-v hull design for exceptional ride comfort and stability
- Self-draining deck with non-skid coating to enhance safety
- Optional dual-engine configuration for redundancy and power
- Ample under-seat storage lockers and bow locker for gear
- Removable canopy and windscreen options for all-weather operation
- Eco-friendly design with low wake and minimal fuel consumption

Ready to elevate your passenger transport fleet? Contact us today to learn more about the Smartliner Passenger 23, request a demo, or get a custom quote. Transform your coastal tours and harbour services with the best in fibreglass passenger boats.
