Product description:

Discover unparalleled safety and durability with the Jomo 300, our premier Australian-made small plastic boat. Engineered for excellence, this versatile vessel is ideal for fishing enthusiasts, family outings, and serving as a reliable tender for larger watercraft.

Versatile, tough, and unsinkable. Whether you’re casting a line, embarking on family adventures, or shuttling between your larger vessel and the shore, the Jomo 300 boat offers unparalleled safety and performance

Designed with precision and care in Australia, the Jomo 300 boat is engineered to excel in a wide variety of applications. Whether you’re casting your line, embarking on family adventures, shuttling

between your larger vessel and the shore, this boat offers unparalleled safety and performance.

Constructed from high-quality polyethylene, this boat boasts exceptional durability and toughness. Unlike its aluminum counterparts, it’s virtually maintenance-free, ensuring more time on the water and less time in the workshop. Plus, with its positive floatation design, you can rest assured knowing that it won’t sink, adding an extra layer of security for you and your loved ones.

Its compact size makes it ideal for maneuvering in tight spaces, while its sturdy build guarantees years of reliable service. Whether anchored off the pontoon or docked at your family holiday home, this boat is your ticket to endless adventures.

Additionally, Jomo boat’s robust transom is strong enough to be rated for a 20hp motor, giving you the option for more power and greater fuel efficiency. With this increased power, you can confidently navigate various water conditions with ease.

Experience the freedom and flexibility that our Jomo 300 provides, and make every adventure memorable.

Jomo
The Jomo
DIFFERENCE
MADE IN AUSTRALIA
Built to the highest International Safety Standards
Ample space for storage
Unsinkable and almost impossible to damage
No corrosion or osmosis
Stable at rest and underway
Excellent handling
Jomo 300 with optional console and lights
Jomo utilises premium materials and the latest rotomoulding techniques to create an air-tight one-piece hull. This enables the Jomo to achieve Level Floatation, even when completely flooded.
Your Jomo can be customised to suit your needs as a family boat, as a fishing boat, as a work boat and as a tender
